

A MONTH OF SERVICE & HUMANITY

This **May**, Berhampur Sabuja Bahini continues its mission of serving the community and protecting nature. Here's a glimpse of our impactful initiatives that focus on the well-being of all animals, spreading compassion, and creating a better, kinder world for every living being.

On the auspicious occasion of Akshaya Tritiya, Berhampur Sabuja Bahini extended a helping hand to the community by distributing refreshing buttermilk to people enduring the scorching summer heat. The initiative brought relief to pedestrians, workers, travelers, and local residents while promoting the spirit of service and compassion.

As forests disappear due to urban growth, many monkeys are forced to search for food near human settlements. Through this initiative, we provided healthy food and promoted compassion towards wildlife.

By adopting trees at Sukunda/ Bina hojo, many nature lovers celebrated their birthday, marriage anniversary, death memory with a meaningful commitment to nature, inspiring love, sustainability, and a greener future. May their bond and these trees continue to grow and flourish together.

A Mission of Hope for Olive Ridley from nesting to Hatchlings! Supporting the safe release of these tiny turtles helps protect marine biodiversity and wildlife. Together, let's raise awareness, conserve nesting beaches, and safeguard our oceans for future generations.

"Through our 'Adopt a Tree Drive,' more than 3,000 trees have been planted by nature-loving citizens to celebrate birthdays, marriage anniversaries, death anniversaries, and other meaningful occasions. This month alone, over 30 individuals joined the movement, transforming their special moments into a lasting gift for the environment and future generations."

"Beyond planting trees, our dedicated team members regularly volunteer their time to water, protect, and monitor plantation sites, ensuring healthy growth and long-term survival. Their continuous care and commitment are helping transform every sapling into a thriving tree for a greener future."

OUR MISSION**

During the summer season, our dedicated team members distribute more than 1,000 glasses of refreshing buttermilk every day to thirsty people. Supported by generous donors and selfless volunteers, this humanitarian initiative has brought comfort to countless individuals and earned heartfelt blessings from the community.

Our Summer Buttermilk Distribution Drive provides relief from extreme heat and helps prevent dehydration among thousands of people. The overwhelming response and blessings from beneficiaries inspire more citizens to come forward each year and support this noble cause through donations and volunteer service.

OUR MISSION

Our "Food for Animals" campaign is dedicated to supporting both wild and domestic animals in need. Through this initiative, we provide food to monkeys in forest areas and assist injured, abandoned, and recovering animals, including cows in animal hospital helping them survive and live with dignity. This compassionate effort reflects our commitment to protecting all forms of life and promoting harmony between humans and nature.

Celebrate your special moments by making a difference in the lives of animals. On birthdays, marriage anniversaries, death anniversaries, and in loving memory of loved ones, you can support our "Food for Animals" campaign through donations, helping provide food and care to animals in need while creating a lasting legacy of compassion.

OUR MISSION

For the past five years, our dedicated team has been actively involved in the conservation of Olive Ridley sea turtles at Boteswar Beach. During both the nesting and hatching seasons, volunteers work tirelessly to protect nests, monitor hatchlings, and support the safe journey of these endangered turtles from the beach to the sea, contributing to the preservation of marine biodiversity.

Bee Conservation for Biodiversity:
On World Bee Day,
our "Adopt a Bee Box Drive"
promoted bee conservation
and biodiversity.
Bee Specialist
D. Narayan highlighted the benefits
of bee cultivation,
inspiring communities to adopt
bee boxes and support a greener,
sustainable future.

A single honeybee must visit
more than 10,000 flowers to
produce just 1 gram of honey.

While collecting nectar,
bees perform thousands
of pollination activities that
help farmers increase crop yields,
improve fruit quality, and
support biodiversity. Protecting
bees means protecting our food,
our farmers, and our future.

Bee conservation plays a vital
role in maintaining ecological
balance by supporting the
pollination of flowering plants,
trees, and crops. By protecting bees,
we help preserve biodiversity,
strengthen food security,
and ensure a healthier
environment for
future generations.
